Supplement dated February 14, 2005 to the Contract Prospectus and Contract Prospectus Summary, each dated May 1, 2004, as supplemented on May 27, 2004, August 4, 2004, August 18, 2004, October 29, 2004 and November 3, 2004

The information in this Supplement updates and amends certain information contained in the Contract Prospectus and Contract Prospectus Summary. You should read this Supplement along with the current Contract Prospectus and Contract Prospectus Summary.

1. In connection with the substitution of funds described in the August 18, 2004 supplement to the Contract Prospectus and Contract Prospectus Summary, the following new investment options will be available under your contract as of the effective date of the substitution. You will receive a separate supplement detailing the substitution.

ING American Century Select Portfolio (Initial Class)

ING Oppenheimer Global Portfolio (Initial Class)

ING Oppenheimer Strategic Income Portfolio (Initial Class)

ING Salomon Brothers Large Cap Growth Portfolio (Initial Class)

ING T. Rowe Price Diversified Mid Cap Growth Portfolio (Initial Class)

ING Van Kampen Equity and Income Portfolio (Initial Class)

- 2. The minimum and maximum total fund operating expenses shown in the Contract Prospectus will not change with the addition of the funds in Item 1 of this supplement. Therefore, there is no change to the hypothetical examples shown in the Contract Prospectus and Contract Prospectus Summary.
- 3. The following adds information about the new funds to the Fund Expense Table beginning on page 7 of the Contract Prospectus. In addition, effective January 1, 2005, the information for ING VP Emerging Markets Fund and ING VP Natural Resources Trust appearing in the Fund Expense Table is deleted and replaced with the following information for ING VP Emerging Markets Fund and ING VP Natural Resources Trust to reflect changes in fund fees and expenses effective January 1, 2005.

- **4.** The Footnotes to "Fund Expense Table" beginning on page 9 of the Contract Prospectus are amended by deleting footnotes (15) and (16) and by adding the following footnotes:
 - (25) Effective December 1, 2004, Management (Advisory) Fees have been restated to reflect a decrease as follows: from 0.80% to 0.64% for ING American Century Select Portfolio; from 0.70% to 0.64% for ING Salomon Brothers Large Cap Growth Portfolio; from 0.85% to 0.64% for ING T. Rowe Price Diversified Mid Cap Growth Portfolio; and from 0.85% to 0.55% for ING Van Kampen Equity and Income Portfolio.
 - (26) Effective December 1, 2004, the administrative fees included in Other Expenses have been restated to reflect a decrease as follows: from 0.20% to 0.02% for ING American Century Select Portfolio, ING T. Rowe Price Diversified Mid Cap Growth Portfolio and ING Van Kampen Equity and Income Portfolio; and from 0.60% to 0.06% for ING Oppenheimer Global Portfolio.
 - (27) The fees and expenses shown are based on estimated expenses for the current fiscal year.
 - (28) ING Investments, LLC has entered into a written expense limitation agreement with the Fund under which it will limit expenses of the Fund, excluding interest, taxes, brokerage and extraordinary expenses, subject to possible recoupment by ING Investments, LLC within three years. The amount of the Fund's expenses waived, reimbursed or recouped during the last fiscal year by ING Investments, LLC, adjusted for contractual changes, if any, is shown under the heading "Fees and Expenses Waived or Reimbursed." The expense limit is 2.50%. The expense limit will continue through at least May 1, 2006. In addition, effective January 1, 2005, pursuant to a side agreement, ING Investments, LLC has lowered the expense limit for ING VP Emerging Markets Fund to 1.75% and for ING VP Natural Resources Trust to 1.18% through at least December 31, 2005. There is no guarantee that this side agreement will continue after that date. For further information regarding the Fund's fees and expenses see the Fund's prospectus.
- 5. The following replaces the paragraph labeled "Limits Imposed by the Underlying Fund" in the Investment Options section in the Contract Prospectus.
 - **Limits Imposed by Underlying Funds.** Orders for the purchase of fund shares may be subject to acceptance or rejection by the underlying fund. We reserve the right to reject, without prior notice, any allocation of a purchase payment to a subaccount if the subaccount's investment in its corresponding fund is not accepted by the fund for any reason.
- **6.** The following replaces the paragraphs under "Limits on Frequent or Disruptive Transfers" and "Limits Imposed by the Funds" in the Transfers section in the Contract Prospectus and in section "6. Investment Options" of the Contract Prospectus Summary.
 - **Limits Imposed by Underlying Funds.** Orders for the purchase of fund shares may be subject to acceptance or rejection by the underlying fund. We reserve the right to reject, without prior notice, any allocation of a purchase payment to a subaccount if the subaccount's investment in its corresponding fund is not accepted by the fund for any reason.
 - Limits on Frequent or Disruptive Transfers. The contract is not designed to serve as a vehicle for frequent trading. Frequent trading can disrupt management of a fund and raise its expenses through: 1) increased trading and transaction costs; 2) forced and unplanned portfolio turnover; 3) lost opportunity costs; and 4) large asset swings that decrease the fund's ability to provide maximum investment return to all contract holders and participants. This in turn can have an adverse effect on fund performance. Accordingly, individuals or organizations that use market-timing investment strategies and make frequent transfers should not purchase the contract.

We monitor transfer activity. With regard to frequent transfers, in the event that an individual's or organization's transfer activity:

- 1. exceeds our then-current monitoring standard for frequent trading;
- 2. is identified as problematic by an underlying fund even if the activity does not exceed our monitoring standard for frequent trading; or
- 3. if we determine in our sole discretion that such transfer activity may not be in the best interests of other contract holders or participants,

we will take the following actions to deter such activity. Upon the first violation, we will send a one time warning letter. A second violation will result in the suspension of trading privileges via facsimile, telephone, email and internet, and limit trading privileges to submission by regular U.S. mail for a period of six months. At the end of that period, trading privileges will be reinstated. If there is another violation after such rights are reinstated, we will suspend such privileges permanently. We will notify you in writing if we take any of these actions.

With regard to transfers initiated by a market-timing organization or individual or other party authorized to give transfer instructions on behalf of multiple contract owners or participants, we will also take the following actions, without prior notice: (1) not accepting transfer instructions from an agent acting on behalf of more than one contract holder or participant; and (2) not accepting preauthorized transfer forms from market timers or other entities acting on behalf of more than one contract holder or participant at a time.

Our current definition of frequent trading is more than one purchase and sale of the same underlying fund within a 30-day period. We do not count transfers associated with scheduled dollar cost averaging or automatic rebalancing programs and transfers involving certain de minimis amounts when determining whether trading activity is excessive. We reserve the right to modify our general standard, or the standard as it may apply to a particular fund, at any time without prior notice, depending on, among other factors, the needs of the underlying fund(s), the best interests of contract holders, participants and fund investors and/or state or federal regulatory requirements. If we modify such standard, it will be applied uniformly to all contract holders and participants or, as applicable, to all contract holders and participants investing in the underlying fund.

In addition, if, due to the excessive dollar amounts of trades, even though not within our then current definition of frequent trading, an individual's or organization's transfer activity is determined, in our sole discretion, to be disruptive, we will take the same actions as are described above to limit frequent transfers.

The Company does not allow waivers to the above policy. Our excessive trading policy may not be completely successful in preventing market timing or excessive trading activity.

7. The following information is added to Appendix IV – Fund Descriptions in the Contract Prospectus.

ING Partners, Inc ING Van Kampen Equity and Income Portfolio (Initial Class)	ING Life Insurance and Annuity Company Subadviser: Morgan Stanley Investment Management, Inc.	Seeks total return, consisting of long-term capital appreciation and current income. Under normal circumstances, invests at least 80% of net assets (plus any borrowings for investment purposes) in equity and income securities at the time of investment. Invests primarily in income-producing equity instruments (including common stocks, preferred stocks and convertible securities) and investment grade quality debt securities. Under normal market conditions, invests at least 65% of total assets in income-producing equity securities.

8. Appendix V – Condensed Financial Information in the Contract Prospectus is amended by updating the tables to add (1) the accumulation unit value (AUV) at the beginning of the period, (2) the AUV at the end of the period and (3) the total number of accumulation units outstanding at the end of the period for each subaccount of Variable Annuity Account C available under the contracts for the period ended September 30, 2004. For those subaccounts that commenced operations during the period ended September 30, 2004 the "Value at beginning of period" shown is the value at first date of investment. For those subaccounts that ended operations during the period ended September 30, 2004 the "Value at end of period" shown is the value at the last date of investment. The update to Appendix V – Condensed Financial Information is attached at the end of this supplement as Exhibit I.

Notes to Financial Statements (Unaudited)

1. Organization

ING Life Insurance and Annuity Company Variable Annuity Account C (the "Account") was established by ING Life Insurance and Annuity Company ("ILIAC" or the "Company") to support the operations of variable annuity contracts ("Contracts"). The Company is a wholly-owned subsidiary of ING America Insurance Holdings, Inc. ("ING AIH"), an insurance holding company domiciled in the State of Delaware. ING AIH is a wholly-owned subsidiary of ING Groep, N.V., a global financial services holding company based in The Netherlands.

The Account is registered as a unit investment trust with the Securities and Exchange Commission under the Investment Company Act of 1940, as amended. ILIAC provides for variable accumulation and benefits under the Contracts by crediting annuity considerations to one or more divisions within the Account or the fixed separate account, which is not part of the Account, as directed by the Contractowners. The portion of the Account's assets applicable to Contracts will not be charged with liabilities arising out of any other business ILIAC may conduct, but obligations of the Account, including the promise to make benefit payments, are obligations of ILIAC. The assets and liabilities of the Account are clearly identified and distinguished from the other assets and liabilities of ILIAC.

At September 30, 2004, the Account had 140 investment divisions (the "Divisions"), 76 of which invest in independently managed mutual funds and 64 of which invest in mutual funds managed by affiliates, either ING Investments, LLC or ING Life Insurance and Annuity Company. The assets in each Division are invested in shares of a designated fund ("Fund") of various investment trusts (the "Trusts"). Investment Divisions at September 30, 2004 and related Trusts are as follows:

2. Significant Accounting Policies

The following is a summary of the significant accounting policies of the Account:

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments

Investments are made in shares of a Fund and are recorded at fair value, determined by the net asset value per share of the respective Fund. Investment transactions in each Fund are recorded on the trade date. Distributions of net investment income and capital gains from each Fund are recognized on the ex-distribution date. Realized gains and losses on redemptions of the shares of the Fund are determined on a first-in, first-out basis. The difference between cost and current market value on the day of measurement is recorded as unrealized appreciation or depreciation of investments.

Federal Income Taxes

Operations of the Account form a part of, and are taxed with, the total operations of ILIAC, which is taxed as a life insurance company under the Internal Revenue Code. Earnings and realized capital gains of the Account attributable to the Contractowners are excluded in the determination of the federal income tax liability of ILIAC.

Variable Annuity Reserves

Prior to the annuity date, the Contracts are redeemable for the net cash surrender value of the Contracts. The annuity reserves are equal to the aggregate account values of the Contractowners invested in the Account Divisions. Net assets allocated to contracts in the payout period are computed according to the 1983a Individual Annuitant Mortality Table. The assumed investment return is 3.5% unless the Contractowner elects otherwise, in which case the rate may vary from 3.5% to 7%, as regulated by the laws of the respective states. The mortality risk is fully borne by ILIAC and may result in additional amounts being transferred into the Account by ILIAC to cover greater longevity of annuitants than expected. Conversely, if amounts allocated exceed amounts required, transfers may be made to the Company.

3. Charges and Fees

Under the terms of the Contracts, certain charges are allocated to the Contracts to cover ILIAC's expenses in connection with the issuance and administration of the Contracts. Following is a summary of these charges:

Mortality and Expense Risk Charges

ILIAC assumes mortality and expense risks related to the operations of the Account and, in accordance with the terms of the Contracts, deducts a daily charge from the assets of the Account. Daily charges are deducted at annual rates of up to 1.50% of the average daily net asset value of each Division of the Account to cover these risks, as specified in the Contract.

Administrative Charges

A daily charge at an annual rate of up to 0.25% of the assets attributable to the Contracts is deducted, as specified in the Contract, for administrative charges related to the Account.

Contract Maintenance Charges

For certain Contracts, an annual Contract maintenance fee of up to \$30 may be deducted from the accumulation value of Contracts to cover ongoing administrative expenses, as specified in the Contract.

Contingent Deferred Sales Charges

For certain Contracts, a contingent deferred sales charge is imposed as a percentage of each premium payment if the Contract is surrendered or an excess partial withdrawal is taken, and currently ranges up to 7%, as specified in the Contract.

Premium Taxes

For certain Contracts, premium taxes are deducted, where applicable, from the accumulation value of each Contract. The amount and timing of the deduction depends on the Contractowner's state of residence and currently ranges up to 4.0% of premiums.

4. Related Party Transactions

During the nine months ended September 30, 2004, management and service fees were paid indirectly to ING Investments, LLC, an affiliate of the Company, in its capacity as investment adviser to the ING GET Fund, ING VP Intermediate Bond Portfolio, ING VP Money Market Portfolio, ING VP Balanced Portfolio, Inc., ING Variable Portfolios, Inc., ING VP Emerging Markets Fund, Inc., ING VP Natural Resources Trust, ING VP Growth and Income Portfolio, ING Strategic Allocation Portfolio, Inc., and ING Variable Products Trust. The annual fee rate ranged from 0.25% to 1.00% of the average net assets of each respective Fund or Fund of the Trust. In addition, management fees were paid to ING Life Insurance and Annuity Company, an affiliate, in its capacity as investment adviser to ING Partners, Inc. The annual fee rate ranged from 0.50% to 1.00% of the average net assets of each respective Fund of the Trust.

e

The Investment Income Ratio represents dividends received by the Division, excluding capital gains distributions, divided by the average net assets. ⋖

items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table. The Expense Ratio considers only the expenses borne directly by the Account and is equal to the mortality and expense charge, as defined in Note 3. Certain The recognition of investment income is determined by the timing of the declaration of dividends by the underlying fund in which the Division invests.

table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table. Total Return is calculated as the change in unit value for each Contract presented in the Statements of Assets and Liabilities. Certain items in this

1. Basis of Presentation

ING Life Insurance and Annuity Company ("ILIAC"), and its wholly-owned subsidiaries (collectively, the "Company") are providers of financial products and services in the United States. These condensed consolidated financial statements include ILIAC and its wholly-owned subsidiaries, ING Insurance Company of America ("IICA"), ING Financial Advisers, LLC, and, through February 28, 2002, Aetna Investment Adviser Holding Company, Inc. ("IA Holdco"). ILIAC was a wholly-owned subsidiary of ING Retirement Holdings, Inc. ("HOLDCO"), which was a wholly-owned subsidiary of ING Retirement Services, Inc. ("IRSI"). IRSI was a wholly-owned subsidiary of Lion Connecticut Holdings Inc. ("Lion"), which in turn was ultimately owned by ING Groep N.V. ("ING"), a financial services company based in The Netherlands. However, on March 30, 2003, a series of mergers occurred in the following order: IRSI merged into Lion, HOLDCO merged into Lion and IA Holdco merged into Lion. As a result, ILIAC is now a direct wholly-owned subsidiary of Lion.

On February 28, 2002, ILIAC contributed 100% of the stock of IA Holdco and its subsidiaries to HOLDCO, (former ILIAC parent company), resulting in a distribution totaling \$60.1 million. As a result of this transaction, the Investment Management Services segment is no longer reflected as an operating segment of the Company.

The condensed consolidated financial statements and notes as of September 30, 2004 and December 31, 2003 and for the three and nine-months ended September 30, 2004 and 2003 ("interim periods") have been prepared in accordance with U.S. generally accepted accounting principles and are unaudited. The condensed consolidated financial statements reflect all adjustments (consisting only of normal recurring accruals), which are, in the opinion of management, necessary for the fair presentation of the consolidated financial position, results of operations and cash flows for the interim periods. These condensed consolidated financial statements and notes should be read in conjunction with the consolidated financial statements and related notes as presented in the Company's 2003 Annual Report on Form 10-K. The results of operations for the interim periods may not be considered indicative of results to be expected for the full year. Certain reclassifications have been made to 2003 financial information to conform to the 2004 presentation.

The Company conducts its business through one reporting segment, U.S. Financial Services ("USFS"), and revenue reported by the Company is predominantly derived from external customers.

2. Recently Adopted Accounting Standards

Accounting and Reporting by Insurance Enterprises for Certain Nontraditional Long-Duration Contracts and for Separate Accounts

The Company adopted Statement of Position ("SOP") 03-1, "Accounting and Reporting by Insurance Enterprises for Certain Nontraditional Long-Duration Contracts and for Separate Accounts," on January 1, 2004. SOP 03-1 establishes several new accounting and disclosure requirements for certain nontraditional long-duration contracts and for separate accounts including, among other things, a requirement that assets and liabilities of separate account arrangements that do not meet certain criteria be accounted for as general account assets and liabilities, and that revenues and expenses related to such arrangements be consolidated with the respective revenue and expense lines in the Condensed Consolidated Statement of Operations. In addition, the SOP requires additional liabilities be established for certain guaranteed death and other benefits and for Universal Life products with certain patterns of cost of insurance charges, and that sales inducements provided to contractholders be recognized on the balance sheet separately from deferred acquisition costs and amortized as a component of benefits expense using methodology and assumptions consistent with those used for amortization of deferred policy acquisition costs.

The Company evaluated all requirements of SOP 03-1 and determined that it is affected by the SOP's requirements to account for certain separate account arrangements as general account arrangements and to defer, amortize, and recognize separately, sales inducements to contractholders. Requirements to establish additional liabilities for minimum guarantee benefits are also applicable to the Company, however, the Company's policies on contract liabilities have historically been, and continue to be, in conformity with the requirements newly established. Requirements for recognition of additional liabilities for products with certain patterns of cost of insurance charges are not applicable to the Company.

The adoption of SOP 03-1 did not have a significant effect on the Company's results of operations, and had no impact on the Company's net income.

The implementation of SOP 03-1 raised questions regarding the interpretation of the requirements of Financial Accounting Standard ("FAS") No. 97, concerning when it is appropriate to record an unearned revenue liability related to the insurance benefit function. To clarify its position, the Financial Accounting Standards Board ("FASB") issued FASB Staff Position No. FAS 97-1 ("FSP FAS 97-1"), "Situations in Which Paragraphs 17(b) and 20 of FASB Statement No. 97, 'Accounting and Reporting by Insurance Enterprises for Certain Long-Duration Contracts and for Realized Gains and Losses from the Sale of Investments,' Permit or Require Accrual of an Unearned Revenue Liability," effective for fiscal periods beginning subsequent to the date the guidance was issued, June 18, 2004. The Company adopted FSP FAS 97-1 on July 1, 2004 and has evaluated the impact of the guidance on whether the Company is required to establish an additional unearned revenue reserve on its existing and new business. The

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

adoption of FSP FAS 97-1 did not have an impact on the Company's financial position, results of operations or cash flows.

The Meaning of Other Than Temporary Impairment and its Application to Certain Investments

In March 2004, the Emerging Issues Task Force ("EITF") reached a consensus on EITF Issue No. 03-1 ("EITF 03-1"), "The Meaning of Other Than Temporary Impairment and Its Application to Certain Investments," requiring that a three-step impairment model be applied to securities within its scope. The three-step model is to be applied on a security-by-security basis as follows:

- Step 1: Determine whether an investment is impaired. An investment is impaired if the fair value of the investment is less than its cost basis.
- Step 2: Evaluate whether an impairment is other than temporary.
- Step 3: If the impairment is other than temporary, recognize an impairment loss equal to the difference between the investment's cost and its fair value.

On September 30, 2004, the FASB issued FASB Staff Position No. EITF Issue 03-1-1 ("FSP EITF 03-1-1"), "Effective Date of Paragraphs 10-20 of EITF Issue No. 03-1, 'The Meaning of Other Than Temporary Impairment and Its Application to Certain Investments," which delayed EITF 03-1's original effective date of July 1, 2004 for the paragraphs of the guidance surrounding steps two and three of the impairment model introduced. The delay is in effect until a final consensus can be reached on such guidance. Despite the delay of the implementation of steps two and three, other than temporary impairments are still to be recognized as required by existing guidance.

Earlier consensus reached by the EITF on this issue required that certain quantitative and qualitative disclosures be made for unrealized losses on debt and equity securities that have not been recognized as other than temporary impairments. These disclosures were adopted by the Company, effective December 31, 2003, and included in the Investments footnote of the Notes to Consolidated Financial Statements included in the Company's December 31, 2003 Form 10-K. In addition to the disclosure requirements adopted by the Company effective December 31, 2003, the final consensus of EITF 03-1 reached in March 2004 included additional disclosure requirements that are effective for annual financial statements for fiscal years ending after June 15, 2004.

3. New Accounting Pronouncements

In September 2004, the AICPA issued Technical Practice Aid 6300.05-6300.08 "Q&As Related to the Implementation of SOP 03-1, Accounting and Reporting by Insurance Enterprises for Certain Nontraditional Long-Duration Contracts and for Separate Accounts" (the "TPA"). The TPA provides additional guidance regarding certain implicit assessments that may be used in testing of the base mortality function on contracts, which is performed to determine whether additional liabilities are required in conjunction with SOP 03-1. In addition, the TPA provides additional guidance

surrounding the allowed level of aggregation of additional liabilities determined under the SOP. The Company is currently evaluating the impact of the TPA and anticipates it will have no impact on the Company's financial position, results of operations or cash flows.

4. Deferred Policy Acquisition Costs and Value of Business Acquired

Deferred Policy Acquisition Costs ("DAC") is an asset, which represents certain costs of acquiring certain insurance business, which are deferred and amortized. These costs, all of which vary with and are primarily related to the production of new and renewal business, consist principally of commissions, certain underwriting and contract issuance expenses, and certain agency expenses. Value of business acquired ("VOBA") is an asset, which represents the present value of estimated net cash flows embedded in the Company's contracts, which existed at the time the Company was acquired by ING. DAC and VOBA are evaluated for recoverability at each balance sheet date and these assets would be reduced to the extent that gross profits are inadequate to recover the asset.

The amortization methodology varies by product type based upon two accounting standards: FAS No. 60, "Accounting and Reporting by Insurance Enterprises" ("FAS No. 60") and FAS No. 97, "Accounting and Reporting by Insurance Enterprises for Certain Long-Duration Contracts and Realized Gains and Losses from the Sale of Investments" ("FAS No. 97").

Under FAS No. 60, acquisition costs for traditional life insurance products, which primarily include whole life and term life insurance contracts, are amortized over the premium payment period in proportion to the premium revenue recognition.

Under FAS No. 97, acquisition costs for universal life and investment-type products, which include universal life policies and fixed and variable deferred annuities, are amortized over the life of the blocks of policies (usually 25 years) in relation to the emergence of estimated gross profits from surrender charges, investment margins, mortality and expense margins, asset-based fee income, and actual realized gains (losses) on investments. Amortization is adjusted retrospectively when estimates of current or future gross profits to be realized from a group of products are revised.

VOBA activity for the nine month periods ended September 30, 2004 and 2003 was as follows:

5. Investments

Impairments

During the three months ended September 30, 2004, the Company determined that 26 fixed maturities had other than temporary impairments. As a result, for the three months ended September 30, 2004, the Company recognized a pre-tax loss of \$5.6 million to reduce the carrying value of the fixed maturities to their fair value at the time of impairment. During the three months ended September 30, 2003, the Company determined that 5 fixed maturities had other than temporary impairments. As a result, for the three months ended September 30, 2003, the Company recognized a pre-tax loss of \$8.5 million to reduce the carrying value of the fixed maturities to their fair value at the time of impairment.

During the nine months ended September 30, 2004, the Company determined that 50 fixed maturities had other than temporary impairments. As a result, for the nine months ended September 30, 2004, the Company recognized a pre-tax loss of \$11.4 million to reduce the carrying value of the fixed maturities to their fair value at the time of impairment. During the nine months ended September 30, 2003, the Company determined that 80 fixed maturities had other than temporary impairments. As a result, for the nine months ended September 30, 2003, the Company recognized a pre-tax loss of \$74.7 million to reduce the carrying value of the fixed maturities to their fair value at the time of impairment.

The fair value of the remaining impaired fixed maturities at September 30, 2004 and 2003 is \$145.1 million and \$156.8 million, respectively.

Notes to Condensed Consolidated Financial Statements (Unaudited)

6. Separate Accounts

Separate Account assets and liabilities generally represent funds maintained to meet specific investment objectives of contractholders who bear the investment risk, subject, in limited cases, to minimum guaranteed rates. Investment income and investment gains and losses generally accrue directly to such contractholders. The assets of each account are legally segregated and are not subject to claims that arise out of any other business of the Company.

Separate Account assets supporting variable options under universal life and annuity contracts are invested, as designated by the policyholder or participant (who bears the investment risk subject, in limited cases, to minimum guaranteed rates) under a contract in shares of mutual funds which are managed by the Company, or in other selected mutual funds not managed by the Company.

Separate Account assets and liabilities are carried at fair value and shown as separate captions in the Condensed Consolidated Balance Sheets. Deposits, investment income and net realized and unrealized capital gains and losses of the Separate Accounts are not reflected in the Condensed Consolidated Financial Statements (with the exception of realized and unrealized capital gains and losses on the assets supporting the guaranteed interest option). The Condensed Consolidated Statements of Cash Flows do not reflect investment activity of the Separate Accounts.

Assets and liabilities of separate account arrangements that do not meet the criteria in SOP 03-1 for separate presentation in the Condensed Consolidated Balance Sheets (those arrangements supporting the guaranteed interest option), and revenues and expenses related to such arrangements, were reclassified to the general account on January 1, 2004, in accordance with the SOP requirements.

7. Additional Insurance Benefits and Minimum Guarantees

Under SOP 03-1, the Company calculates an additional liability (the "SOP reserve") for certain guaranteed benefits in order to recognize the expected value of death benefits in excess of the projected account balance over the accumulation period based on total expected assessments.

The SOP reserve calculated is the minimum guaranteed death benefits ("MGDB") reserve and is determined each period by estimating the expected value of death benefits in excess of the projected account balance and recognizing the excess ratably over the accumulation period based on total expected assessments. The Company regularly evaluates estimates used to adjust the additional liability balance, with a related charge or credit to benefit expense, if actual experience or other evidence suggests that earlier assumptions should be revised. The following assumptions and methodology were used to determine the MGDB SOP reserve at September 30, 2004:

Area	Assumptions/Basis for Assumptions
Data used	Based on 101 investment performance scenarios stratified based on
	10,000 random generated scenarios
Mean investment performance	8.5%
Volatility	18.0%
Mortality	60.0%, 60.0%, 75.0% of the 90-95 ultimate mortality table for standard,
	rachet, and rollup, respectively
Lapse rates	Vary by contract type and duration; range between 1.0% and 40.0%
Discount rates	6.5%, based on the portfolio earned rate of the general account

As of September 30, 2004, the separate account liability subject to SOP 03-1 for minimum guaranteed benefits and the additional liability recognized related to minimum guarantees is \$4,361.5 million and \$0.9 million, respectively. During the nine months ended September 30, 2004, incurred guaranteed benefits and paid guaranteed benefits were \$0.3 million and \$0.1 million, respectively. The net amount at risk (net of reinsurance) and the weighted average attained age of contractholders is \$44.5 million and 67, respectively, as of September 30, 2004.

The aggregate fair value of equity securities (including mutual funds), by major investment asset category, supporting separate accounts with additional insurance benefits and minimum investment return guarantees as of September 30, 2004 is \$4,361.5 million.

8. Sales Inducements

Sales inducements represent benefits paid to contractholders that are incremental to the amounts the Company credits on similar contracts and are higher than the contract's expected ongoing crediting rates for periods after the inducement. As of January 1, 2004, such amounts are reported separately on the balance sheet in accordance with SOP 03-1. Prior to 2004, sales inducements were recorded as a component of other assets on the Condensed Consolidated Balance Sheets. Sales inducements are amortized as a component of benefit expense using methodology and assumptions consistent with those used for amortization of DAC. During the three months ended September 30, 2004, the Company capitalized \$0.8 million and amortized \$1.8 million of sales inducements, respectively. During the nine months ended September 30, 2004, the Company capitalized \$2.1 million and amortized \$5.1 million of sales inducements, respectively.

The unamortized balance of capitalized sales inducements as of September 30, 2004 is \$19.0 million.

9. Benefit Plans

Non-Qualified Retirement Plans

As of December 31, 2001, the Company, in conjunction with ING, offers certain eligible employees (excluding, among others, Career Agents) the Supplemental ING Retirement Plan for Aetna Financial Services and Aetna International Employees ("SERP"). Effective January 1, 2002, the Company, in conjunction with ING, offers certain employees (other than Career Agents) supplemental retirement benefits under the ING Americas Supplemental Executive Retirement Plan (the "Americas Supplemental Plan"). The Company, in conjunction with ING, sponsors the Pension Plan for Certain Producers of ING Life Insurance and Annuity Company (formerly the Pension Plan for Certain Producers of Aetna Life Insurance and Annuity Company) (the "Agents Non-Qualified Plan"), a non-qualified defined benefit pension plan. The Company also sponsors the Producers' Incentive Savings Plan ("PIP"), which is a non-qualified deferred compensation plan for eligible Career Agents and certain other individuals who meet the eligibility criteria specified in the PIP. The Company also sponsors the Producers' Deferred Compensation Plan ("DCP"), which is a non-qualified deferred compensation plan for eligible Career Agents and certain other individuals who meet the eligibility criteria specified in the DCP. Benefit accruals under the SERPs ceased effective as of December 31, 2001.

Net periodic benefit costs for the SERP and the Agents Non-Qualified Plan for the periods ended September 30, 2004 and 2003 were as follows:

	led September 30,	Time months end	led September 30,
2004	2003	2004	2003
1.4	\$ 1.7	\$ 4.4	\$ 5.2

Contributions for the SERP and Agents' Non-Qualified Plan are expected to be \$9.7 million during 2004.

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Condensed Consolidated Financial Statements (Unaudited)

Post-Retirement Benefits

In addition to providing pension benefits, the Company, in conjunction with ING, provides certain health care and life insurance benefits for retired employees and certain agents, including certain Career Agents. Generally, retired employees and eligible Career Agents pay a portion of the cost of these post-retirement benefits, usually based on their years of service with the Company. The amount a retiree or eligible Career Agent pays for such coverage is subject to change in the future.

Net periodic benefit costs for retired employees' and retired agents' post-retirement health care benefits for the periods ended September 30, 2004 and 2003 were as follows:

	Three	months end	ded S	eptember 30,	Nine	months end	ed Se	ptember 30,
(Millions)	2	2004		2003		2004		2003

Net periodic benefit cost	\$	0.4	\$	0.7	\$	2.0	\$	1.9

Contributions for retired employees' and retired agents' post-retirement health care benefits are expected to be \$1.3 million during 2004.

Changes in Assumptions

Changes in the weighted-average assumptions used in the measurement of the benefit obligation for the Retirement Plan were as follows:

	2004	2003
Discount rate at beginning of period	6.25%	6.75%

Change to Post Retirement Health and Welfare Plan

On August 1, 2004, the Post Retirement Health and Welfare Plan (the "Plan") was amended to change the age and service required to qualify for benefits. The Plan now requires five years of continuous service beginning on or after age 50. Whereas previously service cost was attributed throughout the employee's career with the Company, it will now be attributed beginning at age 50. The change is accounted for as a negative plan amendment and curtailment. A remeasurement was performed as of

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Condensed Consolidated Financial Statements (Unaudited)

August 1, 2004, using best estimate assumptions as of that date. The impact of the amendment and subsequent remeasurement was as follows:

Effect of Recently Enacted Legislation

On December 8, 2003, President Bush signed into law the Medicare Prescription Drug Improvement and Modernization Act of 2003 (the "Act"). The Act expands Medicare, primarily by including a prescription drug benefit starting in 2006. Employers currently sponsoring such prescription drug programs will have a range of options to potentially reduce program costs. In May 2004, the FASB issued Staff Position No. FAS 106-2, "Accounting and Disclosure Requirements Related to the Medicare Prescription Drug, Improvement and Modernization Act of 2003" (FSP FAS 106-2), which superceded FSP FAS 106-1 and provides guidance on how companies should account for the impact of the Act on postretirement health care plans. To encourage employers to maintain postretirement drug benefits, beginning in 2006, the federal government will provide non-taxable subsidy payments to employers who sponsor retiree drug benefits that are "actuarially equivalent" to the Medicare Part D benefits. The Company has determined that its postretirement medical plan's prescription drug benefits are likely to qualify as actuarially equivalent to Part D benefits. The resulting subsidy, when received by the Company, will be passed through to the retirees in the form of lower contributions on the part of plan participants. The Company is currently in the process of amending the Plan to reflect the reduction of participant contributions, and therefore, the subsidy is not expected to have a significant impact on the Company's financial position or results of operations.

10. Income Taxes

The Company's effective tax rates for the three months ended September 30, 2004 and 2003 were (23.3)% and 2.4%, respectively. Effective tax rates for the nine months ended September 30, 2004 and 2003 were 12.8% and 27.0%, respectively. The decrease in effective rates for both the three and nine months ended September 30, 2004, is primarily due to the tax benefit associated with the settlement of the 1998-2000 IRS audit. The benefit, which relates primarily to the separate account dividends received deduction, reduced the three-month and nine month year over year effective rates by 53.8% and 18.3%, respectively.

11. Commitments and Contingent Liabilities

Commitments

Through the normal course of investment operations, the Company commits to either purchase or sell securities, commercial mortgage loans or money market instruments at a specified future date and at a specified price or yield. The inability of counterparties to honor these commitments may result in either higher or lower replacement cost. Also, there is likely to be a change in the value of the securities underlying the commitments. At September 30, 2004 and December 31, 2003, the Company had off-balance sheet commitments to purchase investments equal to the fair value of \$225.9 million and \$154.3 million, respectively.

Litigation

The Company is a party to threatened or pending lawsuits/arbitrations arising from the normal conduct of business. Due to the climate in insurance and business litigation, suits against the Company sometimes include claims for substantial compensatory, consequential or punitive damages and other types of relief. Moreover, certain claims are asserted as class actions, purporting to represent a group of similarly situated individuals. While it is not possible to forecast the outcome of such lawsuits/arbitrations, in light of existing insurance, reinsurance and established reserves, it is the opinion of management that the disposition of such lawsuits/arbitrations will not have a materially adverse effect on the Company's operations or financial position.
